

CHELBY MOORE

INFANTS

ABOUT CHELBY

Chelby began working at Cornerstone in 2020. She works with the Infants.

She went to school for her Esthetician license so she could be a skin therapist. She finished that school in December of 2015. She also started her associates in Early Childhood Education.

Chelby was raised in Rice County. She has two loving parents that were both raised in Rice County, as well. Along with her parents, she has a brother, sister-in-law, and a niece. In her spare time, she likes to give facials and be around family.

Chelby's favorite color is blue, and her favorite candy bar is Twix. Her dream vacation is to go to Hawaii. She loves warm weather and beaches.

When asked what her most rewarding accomplishment is, she responds with, "getting my esthetician license, it reminds me why I went to school to be a skin therapist. My mom had skin cancer and I wanted to help educate people that your skin needs to be protected." She is very proud of her family.
